

Montreal, November 28th, 2013

To whom it may concern:

Orbite Aluminae hired Frist Canadian Capital from November 1st, 2010 until late 2012, when we brought a full time IR person in-house. Our experience of having FCC as our investor relations contractor was positive from the outset. The investors they introduced us to had sophistication in grasping our story and were eager to get involved. We had frequent communications with the team at FCC and they were both responsive in terms of a market presence and on more than one occasion helped facilitate block trades. Even after FCC has left the file, Orbite still maintains dialogue with investors introduced by First Canadian and this is a testament to the quality of the prospects and individuals they brought to the table.

Yours truly,
