To whom it may concern:

First Canadian Capital was engaged as part of Osisko's investor relations and market awareness programs from late 2005 through to mid 2009. Dan Boase and the team at FCC helped expand our retail shareholder awareness and image of the company in its early years. They also assisted in maintaining relationships with capital markets and institutional financial professionals. We found First Canadian to be reliable and professional and we enjoyed a good working relationship as we built the Company brand throughout North America and Europe.
